

Date: October 13, 2016

Ref No.: DL2016-105

Declaration of Unirac RM5 and RMDT PV Mounting Systems Compatibility with
Trina Solar PA05, PD05.08, PD05.05, DD05A.08 (II), DD05A.05 (II), PD14, PE14,
and DD14A (II) Modules

To whom it may concern,

After evaluating the Unirac RM5 and RMDT PV Mounting System, Trina Solar Energy Co., Ltd. hereby states that Trina 60 and 72 cell framed modules are permitted to be installed on the RM5 and RMDT Mounting Systems. Trina Solar allows a maximum of ± 2400 Pa of mechanical loading with these systems.

All other conditions from Trina's current Installation Manual shall apply and remain in full force. The end user shall comply with all its terms and provisions at all times.

Modules which have been installed in accordance with Unirac's installation methodology are covered by the standard "LIMITED MANUFACTURER'S WARRANTY FOR TRINA SOLAR BRAND CRYSTALLINE SOLAR PHOTOVOLTAIC MODULE".

Yours Sincerely,

Customer Care Director:
