Subject: Confirmation letter for ROOFMOUNT RM5 & RMDT racking system usage

Dear Ernie,

Thank you for your inquiry about our products. Canadian Solar modules have been certified in accordance with CSA certification body. Please refer to our Installation Manual for the mounting and grounding methods that are currently approved.

Canadian Solar hereby confirms that racking system ROOFMOUNT RM5 & RMDT has been qualified by Canadian Solar Inc. on basis of below demonstrated details and appendices.

Module	Load
CS6X-P CS6K-P	+2600Pa/-1200Pa

(*)Design load and safety factor will be determined by the racking suppliers or professional engineers.

For detailed information, please follow local structural code or contact professional structural engineer.

All mounting designs must be certified by a registered professional engineer. The mounting design and procedures must comply with local electrical and building codes. System designers and installers are solely responsible for load calculations and the proper design of the supporting structure.

Appendix 1: RMDT Install Guide
Appendix 2: RM5 Install Guide
Appendix 3: Rm2.0 Clamp details

Sincerely,

Ximei Wu
Manager of Global Sales Technical Support
