

ADJUSTABLE TILT LEGS

PRECISION, FLEXIBILITY, AND RELIABLE PERFORMANCE

ENGINEERED FOR VERSATILITY, OUR ADJUSTABLE TILT LEGS ARE COMPATIBLE WITH BOTH THE NXT UMount® SYSTEM AND SOLARMOUNT® STANDARD RAIL, DELIVERING A FLEXIBLE, BALLAST-FREE SOLUTION FOR A WIDE RANGE OF ROOF TYPES.

- **Fully Adjustable Tilt:** Covers a 10°– 30° range using only two legs for fast adaptation to site conditions.
- **Two Installation Options:** Flashless butyl and universal compatibility offer unmatched flexibility for any roof configuration.
- **Complete Kit:** Includes front foot, rear leg, and all hardware for both rail clamp and T-bolt installations.
- **No Ballast Required:** Clean, code-compliant installs without added weight.
- **Broad Roof Compatibility:** Ideal for comp shingle, low-slope, flat, and metal roofs.
- **UL 2703 Certified:** Tested for nationwide code compliance and bonding safety.
- **Layout-Ready:** Available in Unirac's U-Builder for streamlined system planning.
- **Two Size Options:** 12" legs adjustable from 8" to 12", and 30" legs adjustable from 18" to 30".

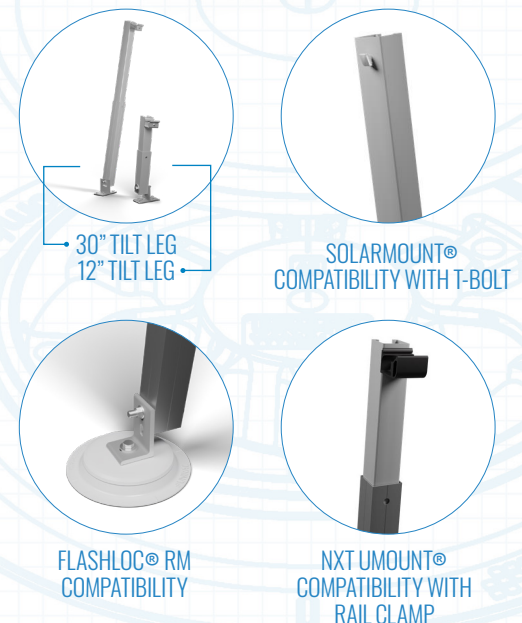

BUTYL TILT LEGS

- Fewer parts, greater flexibility: Simplified installation with minimal components.
- No-flashing attachment. Comes with pre-applied butyl pads for a fast, watertight seal. Just peel, place, and fasten.
- Rafter or direct-to-deck installation.

UNIVERSAL TILT LEGS

- Install utilizing Flashloc® RM (sold separately)
- L-Foot compatible with other third-party attachments.
