

NEW

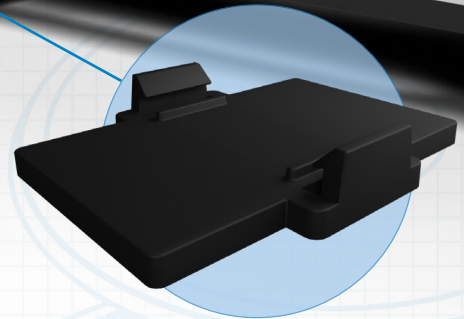

GRIDFLEX[®] 10 ROOF PADS

UNIRAC
BETTER SOLAR STARTS HERE

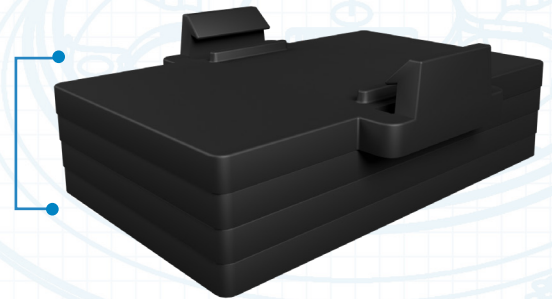

SMART STACKING | SECURE FIT | FASTER INSTALLS

The new GRIDFLEX[®] 10 Roof Pads redefines flat roof racking support with tool-free, stackable performance and secure snap-in placement. Designed with integrated side wings for a tighter grip on rails, these pads stay in place – no shifting, no slipping. Stack up to 5 high to handle roof undulations or elevate your system, all while reducing install time and simplifying material handling.

- **Secure Fit with Gripping Wings** – Pads lock onto rails to prevent shifting during layout or install
- **Stackable Design** – Click pads together (up to 4–5 high) to build up elevation and fill roof irregularities
- **Tool-Free Installation** – Fast, simple setup without extra hardware or tools
- **Installer-Friendly** – Saves time, reduces hassle, and improves handling on the roof
- **Material You Can Trust** – Made from durable Santoprene[™] for long-lasting rooftop performance
- **Cost Neutral** – Improved performance at no added cost

SECURE FIT
