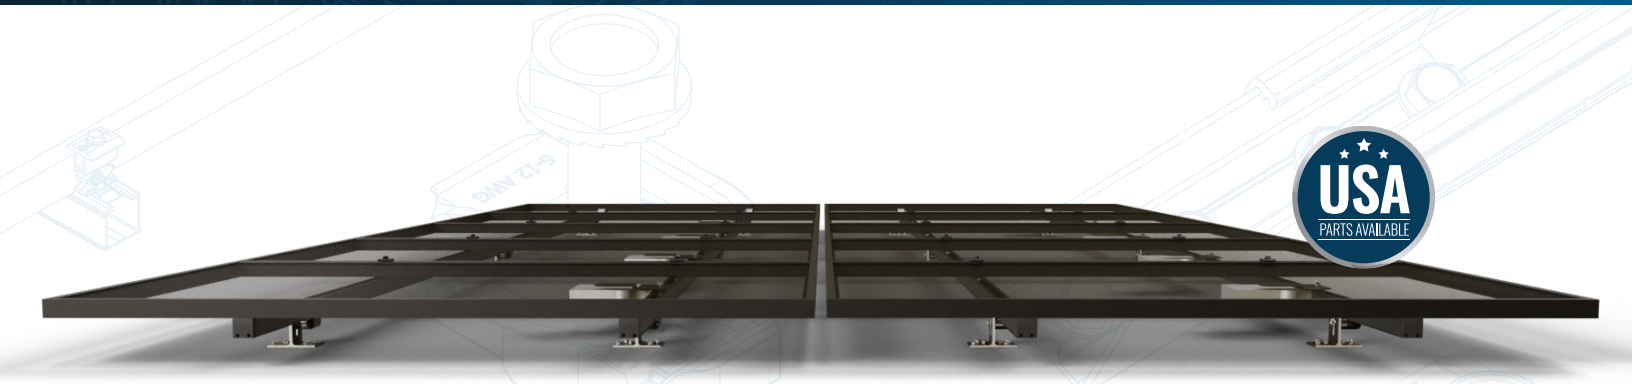
NXT UMOUNT® - DOMESTIC SOLUTION

UNIRAC
BETTER SOLAR STARTS HERE



UNLOCK MAXIMUM SAVINGS WITH NXT UMOUNT®

Unirac's US-made NXT UMOUNT® racking system is designed to meet safe harbor guidance. This open-channel rail system retains all the key features that customers value in NXT and can qualify for the 10% Domestic Content Bonus Credit (DCBC)!

Under the IRS's First Updated Safe Harbor Guidance (Notice 2025-08), the NXT Umount® racking system may contribute up to 19.6% of the total 40% domestic content requirement for a complete PV installation for MLPE-based systems. When paired with select domestic content inverters on the market, the NXT Umount® racking system plays a pivotal role in meeting the 40% domestic content threshold!
