# COMMERCIAL SUPPORT

BETTER SOLAR STARTS HERE

## THE RIGHT TEAM

### Dedicated Engineers, Designers, and Support Specialists

Your project doesn't have time to wait, which is why UNIRAC has one of the largest engineering and design teams dedicated to commercial projects. Team scalability means that spikes in your project pipeline are not an issue. With over a century of solar experience combined, the UNIRAC Engineering Services team will partner with you through design, engineering, permitting, and installation.

## PERSONAL SUPPORT DELIVERED

### 1-3 Day Turn Around Time

Projects are typically designed, engineered and returned in 3 days or less. When revisions or support are required, you have direct access to engineers and designers. UNIRAC's commercial projects team of over 20 employees work to get solutions back to you quickly. Flat roof, pitched roof, and ground mount projects are all supported.

## REQUEST SUPPORT WITH EASE

### Online or Email

Fill out the request form online. The adaptive inputs and ability to upload files ensure that the right information is gathered the first time, avoiding time-wasting iterations. Requests are fast-tracked to the design and engineering teams for rapid response. Email requests can also be taken. Submit to either [UNIRAC.com/Commercial](http://UNIRAC.com/Commercial) or to [CommercialServices@unirac.com](mailto:CommercialServices@unirac.com)

## STAMPED DESIGNS IN MINUTES

### U-Builder Online Design Tool

Create layouts, engineering reports, and access stamped professional engineering letters in minutes using UNIRAC's **U-builder** online design tool. Design on a map interface, import Helioscope designs, and get ASCE code specific design criteria by zip code. Manage all of your projects through your account. Need further design work? Our team can access your **U-builder** project and start there.

## MEET THE TEAM

**BRANDON CARRASCO**  
DIRECTOR OF CUSTOMER SOLUTIONS

**EDGAR PEDREGO**  
COMMERCIAL SOLUTIONS MANAGER

**KYLE BASARICH**  
COMMERCIAL PRODUCT MANAGER

**PATRICK ANDREWS**  
COMMERCIAL SOLUTIONS SPECIALIST

**KAREN PARAMANANDAM**  
SALES & MARKETING PROGRAM MGR.
